ok if i wanted to build this, can matlab somehow help me ?

You said:

ok now is python the best option here or should we be looking at some other coding language for this task?

You said:

ok lets stick with python and matlab

You said:

what would be the benefit of me building this LLM and is it an LLM or somethign else?

You said:

ok now i need you to document all this into a prd so our full discussion
it should be very detailed so i can give it to my developer to start codign teh project.
so get all the requirements and everything into that documents
